April 28, 2016

Continuum Names New CEO

San Jose, CA – Continuum, a leading manufacturer of high energy laser systems for scientific, industrial, and commercial applications, and its parent company, Amplitude Laser Group, have announced the hiring of Mark Enright as the new Chief Executive Officer of Continuum. Mark has assumed his responsibilities on April 25, 2016 and will be operating from the Continuum headquarters in San Jose, CA.

Mark brings to the company more than 30 years of experience in the optics and photonics industry in all areas of management, including operations, engineering, and sales and marketing. He has a MS of Engineering from Stanford University, and most recently served as the CEO of Quantel USA.

“We are very excited to have Mark join the Amplitude Laser Group as the CEO of Continuum. Mark will be spearheading the development of the Group’s activities in North America,” said Gilles Riboulet, CEO of Amplitude Technologies. “Mark makes an excellent addition to our team - his expertise, strong leadership skills, and commitment to innovation are in line with our vision of growth for the company,” added Eric Mottay, CEO of Amplitude Systemes.

“I am thrilled and humbled to be joining Gilles, Eric, and the entire Amplitude Laser Group team as the new CEO of Continuum. The company’s commitment to providing the highest performance laser systems to scientific and industrial customers worldwide made joining this team an easy decision. We look forward to the challenges ahead,” concluded Mark Enright.
